BCC SOFTWARE
A BLUECREST COMPANY

BCC Mail Manager Full Service

Comprehensive Postal Software Solution

Experience limitless solutions.
Accomplish simplicity. Realize true savings.

As a high-volume mailer, you need to maximize your revenue. A heavy workload means sizable postage and labor costs, and delivery deadlines. Exceptional productivity is vital to your operations, as is the ability to leverage all available cost savings. That's why BCC Mail Manager Full Service™ offers a single solution to meet these goals.

Built with the trusted, comprehensive BCC Mail Manager™ software technology, BCC Mail Manager Full Service provides full palletization support, enhanced merge/purge functionality, and in-depth automation, like 24/7 unattended job processing. These capabilities are further augmented by a proprietary address-matching API that goes beyond CASS™ certification and delivers processing speeds many times faster than the industry-standard address matching engines.

INCREASE YOUR EFFICIENCY AND REDUCE LABOR COSTS

» Fully customize your software to meet growing and changing demands

» Automate mailing jobs to decrease labor costs

» Centralize your software for multiple user access

» Coordinate marketing efforts in advance with tracking capabilities

» Leverage savings from combined mailings without adding resources

» Create and process your Every Door Direct Mail® (EDDM®) lists

COMPLETE CUSTOMER JOBS IN RECORD TIME

» Import files of any size from any source to get jobs underway faster

» Use the built-in, high-speed address matching engine to quickly improve your lists

» Set FAST® appointments quickly and easily from within presort software

» Analyze time savings and value of co-mail opportunities

» Generate label proofs without taking printers down

IMPROVE YOUR RELATIONSHIPS

BCC Mail Manager Full Service offers numerous savings opportunities that you can pass on to your customers, increasing their satisfaction.

» Pass postage discounts on to your customers

» Provide quick turnaround times by reducing labor and processing time with automation

» Enhance data with built-in tools
  • Geocoding
  • Genderization
  • Data cleansing

» No limitations on list size

» Access to industry leading data services
  • Track N Trace® mailpiece delivery tracking
  • DSF²® processing to get the best possible postage rates on dense mailings
  • Suite of Move Update processing solutions, like PCOA and Rooftop Geocoding
